

M. FOLLOW-ON STATUS

The **ICP** will provide revised status when the situation changes (e.g., change in **procurement** lead time, procurement is required for materiel originally anticipated to be available from stock, etc.). Generally, these situation changes are unusual in nature, are not programmed for, and require off-line processing. **ICPs** will prepare the status documents as specified in section C., above.

N. PREPARATION OF SPR REQUISITIONS

1. When SPR status citing SPR Status Code PA is received, requisitions citing Demand Code P should be submitted for the SPR related requirements in time to allow for delivery within the appropriate time standard prescribed by **UMMIPS** (reference (v)). Demand Code P indicates to the **ICP** that the requisition is for materiel previously forecasted as an **SPR**. This enables the **ICP** to control and apply the appropriate logic for the demand generated by the requisition. (See **MILSTRIP** (reference (h)) for requisition format and demand codes.)

2. When SPR status is received citing SPR Status Code PR, the SPR is being deleted and the item is a procurement lead time/assembly time away from the support date. **If** the requirement is still valid, the requiring activity must immediately submit a **MILSTRIP** requisition(s) citing Demand Code 0 in record position 44 and Advice Code 2L in record positions 65-66. Advice codes are contained in **MILSTRIP**, appendix B15. When requisitioners desire that specific materiel shipments not be released prior to 50 calendar days before the expiration of an extended RDD, they will express the RDD using code S in record position 62 as prescribed in **MILSTRIP**, appendix B14.

O. LOGISTICS REASSIGNMENTS

1. When the logistics loss is to an **IMM** of another Service/Agency, the LIM will transmit an SPR status to the forecasting activity. The SPR status **will** be prepared in the appendix C50 format and will contain SPR Status Code PV. This status indicates that the item has been involved in **an** LR and a new SPR must be **submitted to the GIM**.

2. When the logistics loss is to an **IMM** within the same Service/Agency, the LIM will forward the record of the SPR to the **GIM**. **No** status need be furnished the forecasting activity.
